Does extended warranty cover air conditioner

Photo Courtesy: LG Let's be honest—in hot, humid weather, it doesn't take long to feel like you're trapped in a sauna, and you'll do almost anything to get some relief. The COVID-19 outbreak and resulting quarantine reminded us all that it's not pleasant to be stuck at home without a reliable way to stay cool and comfortable. If you don't have central air conditioning or a window air conditioner (AC), a portable AC can solve your need to cool down in an instant. The best part is you can easily move one of these units from room to room, allowing you to cool off anywhere in your home, from your bedroom to your home office. Fortunately, several excellent options on the market are designed to fit everyone's different needs. Whether you're trying to beat the heat on a budget or keep a large room cold, these portable ACs can help you stay cool.Important Notes to Know Before Installing Your Portable Air ConditionerThe first time you install a portable AC unit, the process might look tricky. However, each model has specific step-by-step instructions on how to set it up easily and successfully. The standard portable AC will need to vent through a window to kick the hot air out of the room and keep you cool. You may also need an adapter kit that secures the exhaust hose in the window. With that being said, it's best to place a unit near a window with an electrical outlet for easy operation. Photo Courtesy: JMATEX Group/YouTube Also, make sure the window adapter kit will fit on your window. If the kit doesn't fit, you may need to expand or trim it. Once you secure the window adapter kit and connect the exhaust hose that's included in the package, you'll be able to plug in the unit to have fresh, cold air in the room. If you don't have a window, another option is to vent the exhaust through a wall, ceiling or even door (but check to see if a portable air conditioner can work that way before purchasing it). For a better sense of how to install a portable AC unit, check out this video guide by Honeywell. Now, let's go shopping.Low-Cost, But Still an Incredibly Powerful Portable ACLooking for a good deal? You can spend wisely and still rest like Sleeping Beauty during hot nights with this LG Electronics 8,000 BTU Portable AC. Its price and size are small, but its performance is mighty as it blows big blasts of cold air to cool rooms up to 200 square feet. Even better, it has three impressive modes: cool mode to chill out and dehumidify, fan mode to circulate air and dry mode for those extra-wet days. Photo Courtesy: Home Depot Find the right setting for your personal enjoyment by changing the temperature, fan speed, cooling speed and timer. Too comfortable to get up to adjust the AC? No problem. Use the handy remote control to get the job done (even all the way from across the room). Plus, its installation kit and hose make setting up this unit a breeze. Say goodbye to waking up in a sweat. With this AC, you can stay cool, comfortable and in control at an unbeatable price.This Eco-Friendly Portable AC Helps Save the EnvironmentIf you're living the environmentally conscious life, the Whynter Elite 14,000 BTU Portable AC was created especially for you. Going green doesn't mean you have to sacrifice quality (or your budget). Approved by Good Housekeeping and Consumer Reports, this conditioner will meet your top needs: protecting the planet and cooling your home down. It's also free of chlorofluorocarbons (CFCs) and lead. Photo Courtesy: Home Depot Besides being green, this device is easy to set up and use. If you can't get enough peace and quiet, you'll be happy to know that this AC is as quiet as the dawn. And its useful features don't stop there. The unit comes with a programmable timer, digital controls, remote and wheels for effortless mobility. Its fun size and dual-hose system make it space-friendly and fast at fighting off the heat, so you have more room to stay cool and save power all at the same time.Tackle Large Rooms with This Smart Portable ACCooling large spaces isn't easy unless you have the Frigidaire Gallery 12,000 BTU Cool Connect Smart Portable AC. It comes with a relatively big price tag—but even greater features and better operation. Designed for rooms up to 550 square feet, this unit features LED lighting and a modern mesh grille for extra style to complement any room. Photo Courtesy: Lowes Tech fans will love this part the most: it connects to your Wi-Fi, so you can control your AC anytime, anywhere. Coming back home from a hike on a hot day? Use the Frigidaire app on your smartphone to turn the unit on before you strut through the doors. It's also compatible with Google Assistant and Alexa, so you can ask them to schedule the time and day when you want them to switch on the device. The future is here, and we're ready for it.Got a Small Room? This Portable AC Was Destined for ItIf you have a small bedroom, office or apartment, your new best friend will be the Honeywell HL Series 10,000 BTU Portable AC, which cools and dehumidifies spaces up to 450 square feet. This unit handles business on hot days by combining a dehumidifying function, a three-speed fan and an auto-evaporation system. Photo Courtesy: Home Depot The full-function remote control makes it super convenient to operate the unit for those "sleep in bed all day" days. You get a lot of airflow for little effort. Plus, it's easy to move to different rooms and install if you don't want to commit it to only one place.This Portable Combo Unit Is the Perfect Double FeatureDuring the hottest days of the year, the Black + Decker 12,000 BTU Portable Air Conditioner and Heater delivers a premium cooling experience for rooms of about 250 to 300 square feet, dropping the temperature as low as 55 degrees. Even better, the combo unit earns its keep all year round with a built-in heater that takes rooms all the way up to a toasty 81 degrees, if desired. Photo Courtesy: Amazon Installation is quick and easy in any room with window access, but the unit itself sits on the floor on easy-to-move rollers for convenience. It's also easy to clean and comes with a remote control to help you perfectly control the temperature in the room. Additional Fan and Dehumidify settings give you additional climate control, making this unit worth every penny of your investment. MORE FROM CONSUMERSEARCH.COM Photo Courtesy: Tetra Images/Getty Images When the heat of summer is beating down, nothing takes the edge off like the refreshing chill of air conditioning. If you're one of the lucky Americans with central air conditioning in your home, you already know what a difference it makes to your comfort and state of mind in warm weather. But if that central air goes out or you move into a new place without it, it doesn't take long to realize fans and window-mounted AC units may not be enough to beat the heat. Many types of portable air conditioners can provide a temporary solution, but the best long-term answer for creating a cool, comfortable home is to install an air conditioning system. Here's a look at the specs, features, energy efficiency ratings, noise output and warranties for some of the best-rated home air conditioners on the market. Goodman Central HVAC Systems Goodman is a highly efficient and respected heating, ventilation and air conditioning (HVAC) brand. The company's central air units come with variable-speed ECM condenser fan motors that ensure quiet performance, especially when paired with high-density foam sound blankets to muffle compressor noises. The units come with a lifetime limited warranty on the compressors and a 10-year limited warranty on other parts. The Seasonal Energy Efficiency Ratio (SEER) of Goodman units range from 13 to 19 — industry ratings typically range from 13 to 26 — making these units solid performers at a mid-level price point. Photo Courtesy: Goodman Some air conditioner models, including the Goodman DSXC18, have a two-stage Copeland scroll compressor and built-in diagnostics. Compatibility with Goodman's ComfortNet system allows you to monitor the system for issues and display the results on the diagnostic touchscreen. It also lets you auto-configure the airflow and operating characteristics based on the indoor and outdoor components of the system. Amana Central HVAC Systems Like Goodman air conditioners, Amana air conditioners offer limited lifetime warranties for unit replacement and 10-year limited warranties on parts. The HVAC systems feature a single-speed condenser fan motor and a factory-installed inline filter drier that helps protect the sensitive components from dirt and moisture. Copeland CoreSense Diagnostics constantly monitor the system to help you spot problems early and avoid system failures. Photo Courtesy: Amana The Amana brand also features a high-density foam compressor sound blanket to minimize noise levels. Models like the Amana AVXC20 take advantage of high energy-efficient scroll compressors to achieve up to the maximum SEER rating, with the average Amana HVAC system earning a 16.7 SEER rating. American Standard Central HVAC Systems American Standard has been cooling down homes for many years. Models such as the American Standard AccuComfort Variable Speed Platinum offer a 12-year limited compressor warranty and a 10-year limited coil warranty. The Spine Fin™ coil system and Duration™ compressor help minimize noise levels, achieving a 69.9 average decibel rating. Some models have as high as a 22 SEER rating and feature AccuComfort™ technology that controls the cooling system with extreme precision. Photo Courtesy: American Standard Trane Central HVAC Systems Once owned by the same parent company that makes American Standard air conditioners, Trane HVAC systems offer a 12-year limited compressor warranty and a 10-year limited coil warranty. The cost of these air conditioners can be more expensive than other models, but the company has a strong reputation for providing premium value that is worth every penny. Trane systems feature compressor sound insulators that reduce noise levels. Different models come with SEER ratings ranging from 14 to 20. Photo Courtesy: Trane Rheem Central HVAC Systems Rheem air conditioning units are regarded as some of the best HVAC systems on the market. They have an average SEER rating of 16.7, with upper level units ranging all the way up to 20. Systems are protected by a 10-year compressor and parts warranty. The cooling technology features a Two Stage Copeland Scroll™ UltraTech™ Compressor that aids in noise reduction. Additionally, the EcoNet™ and PlusOne™ features help owners control the temperature remotely. Photo Courtesy: Rheem Lennox Central HVAC Systems Lennox air conditioning units have the best reputation for energy efficiency. The company produces HVAC systems with a range of SEER ratings, all the way up to the maximum, and the efficiency levels of equipment exceed 98%. With its SilentComfort™ technology, Lennox air conditioners greatly reduce noise levels throughout your home. The patented Climate IQ Technology precisely controls the cooling, even during the hottest part of the day. Lennox units come with a 10-year limited warranty on both parts and the compressor. Photo Courtesy: Lennox York Central HVAC Systems If you're looking for a great warranty, York HVAC systems have you covered with a lifetime warranty on the compressor, a 10-year limited warranty on parts and a one-year warranty on labor. The systems are also budget-friendly and come with a patented QuietDrive™ System to minimize noise pollution. The different models vary in efficiency from 13 SEER to 21 SEER. Additionally, York AC units implement Charge Assurance™ to display the system's overall condition. This feature extends the lifespan of every unit by issuing reminders and warnings for proper maintenance. Photo Courtesy: York Ruud Central HVAC Systems Reliable and long-lasting, Ruud's Achiever series uses both scroll compressors and PSC fan motors to produce SEER ratings of 13 to 17. The compressor is covered by a lifetime warranty, while parts come with a 10-year limited warranty. The units feature a composite base pan designed to safeguard against corrosion and reduce operating noise. The EcoNet-enabled Ultra series boosts the SEER rating up to an impressive 20.5. Photo Courtesy: Ruud Carrier Central HVAC Systems Carrier HVAC systems are top-of-the-line air conditioners designed with strict quality standards. The top-tier Infinity 26 model comes with Greenspeed Intelligence that boosts the SEER rating all the way up to 26. Widely considered to be the quietest air conditioners, Carrier units have average noise levels that barely exceed 68 decibels. In fact, Carrier air conditioners feature Silencer System II™ to keep the operational noise volume low. Carrier air conditioners come with reasonable price tags and a 10-year limited warranty on the compressor and functional parts. Photo Courtesy: Carrier Bryant Preferred HVAC Systems In business for more than 100 years, Bryant Preferred air conditioning systems have SEER ratings that range all the way up to 26. The brand provides a 10-year warranty on both the compressors and functional parts. The patented AeroQuiet System II™ helps reduce noise when the system is running, and DuraGuard Plus protection helps increase the lifespan of units by protecting them from harsh weather. The interior parts include an aluminum fin coil and are also corrosion-resistant. Bryant Preferred HVAC systems tend to be more expensive than other models. Photo Courtesy: Bryant MORE FROM QUESTIONSANSWERED.NET
